Midas Gold Corp.
Notes to Condensed Consolidated Interim Financial Statements
For the six months ended June 30, 2013 and 2012
Unaudited, expressed in US dollars

1. Nature of Operations

Midas Gold Corp. (“the Corporation” or “Midas Gold”) was incorporated on February 22, 2011 under the Business Corporations Act of British Columbia. The Corporation was organized to locate, acquire and develop mineral properties located principally in the Stibnite – Yellow Pine mining district in Valley County, Idaho (the “District”). The Corporation currently operates in one segment, mineral exploration in the United States. The Corporation’s common shares commenced trading on the Toronto Stock Exchange on July 14, 2011 after closing an initial public offering under a prospectus dated June 30, 2011. The corporate office of Midas Gold is located at 1250-999 West Hastings St, Vancouver, BC, V6C 2W2, Canada.

2. Basis of Preparation

a. Statement of Compliance

These condensed consolidated interim financial statements are unaudited and have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting (“IAS 34”), using accounting policies that are consistent with the International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board.

b. Basis of Presentation

These condensed consolidated interim financial statements have been prepared on the historic cost basis except for certain financial instruments, which are measured at fair value.

The preparation of these condensed consolidated interim financial statements is based on the accounting policies consistent with those applied to the consolidated financial statements of Midas Gold Corp. for the year ended December 31, 2012.

These condensed consolidated interim financial statements do not include all of the information required for full financial statements and should be read in conjunction with the consolidated financial statements of Midas Gold Corp. for the year ended December 31, 2012, which are available at the Corporation’s website www.midasgoldcorp.com as well as under its profile on SEDAR at www.sedar.com.

These condensed consolidated interim financial statements for the three and six month period ended June 30, 2013 and 2012 were approved and authorized for issue by the board of directors on August 8, 2013.

3. Summary of Significant Accounting Policies

Standards Issued but not yet Effective

Certain pronouncements were issued by the International Accounting Standards Board (“IASB”) or the IFRS Interpretations Committee. The Corporation does not expect the standards below to have a material impact on the financial statements, although additional disclosures may be required.

3. Summary of Significant Accounting Policies (continued)

Standards Issued but not yet Effective

The following Standards are effective for annual periods beginning on or after January 1, 2014:

- (i) IFRIC 21 - is an interpretation on IAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, with respect to the accounting for levies imposed by governments. IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event. The interpretation clarifies that the obligating event is the activity described in the relevant legislation that triggers the payment of the levy
- (ii) IAS 36 - The IASB published amendments to the disclosures required by IAS 36, when the recoverable amount is determined based on fair value less costs of disposal

The following Standard is effective for annual periods beginning on or after January 1, 2015:

- (i) IFRS 9 - New financial instruments standard that replaces IAS 39 for classification and measurement of financial assets and financial liabilities

4. Exploration and Evaluation Assets

Acquisition

The Corporation acquired title to the Golden Meadows Project through several transactions. All title is held at 100% through patented and unpatented mineral claims, except the Cinnabar claims which are held under an option agreement, and is subject to the royalty described below. During 2012, the Corporation completed the acquisition of the patented Yellow Pine claims through the payment of its final option payment of \$100,000 in accordance with the Option to Purchase Agreement dated November 7, 2003. In total, the Corporation paid \$1,000,000 for the Yellow Pine claims. The Cinnabar claims are subject to an option agreement dated May 3, 2011, whereby on payment of \$150,000 on signing and \$100,000 per year for six years paid on the anniversary of signing, the Corporation has the option to purchase 100% of the Cinnabar claim group. As at June 30, 2013 four payments of \$100,000 remain outstanding and \$350,000 has been paid to date. At completion of the option agreement, the Corporation will have paid \$750,000.

Title

Although the Corporation has taken steps to verify title to the properties in which it has an interest, in accordance with industry standards for properties in the exploration stage, these procedures do not guarantee the Corporation's title. Property title may be subject to unregistered prior agreements and noncompliance with regulatory requirements.

4. Exploration and Evaluation Assets (continued)

Sale of Royalty Interest

On May 9, 2013, Midas Gold entered into an agreement with Franco-Nevada Corporation (“Franco-Nevada”) whereby for gross proceeds of \$15,000,000 Franco-Nevada was granted a perpetual 1.7% net smelter returns royalty on any future gold production from the Golden Meadows Property and 2,000,000 share purchase warrants that are exercisable into 2,000,000 common shares of Midas Gold. The royalty is collateralized by a mortgage over the claims that are subject to the royalty. The warrants have an exercise price of C\$1.23 and expire in ten years. Midas Gold may repurchase one third of the royalty for \$9,000,000 within three years. The Corporation incurred costs of \$565,540 associated with this transaction.

A value of \$886,000 was assigned to the warrants at the date of the transaction and has been recorded as a warrant derivative (Note 6). The remaining proceeds of \$13,548,460, net of transaction costs have been offset against exploration and evaluation assets.

5. Notes Payable

The promissory notes have a fixed interest rate of 3% per annum, have a combined annual payment of \$200,000 due annually on June 2 and mature on June 2, 2015. The Estate of JJ Oberbillig note payable is collateralized by a mortgage over the claims that were purchased from the Estate of JJ Oberbillig. The Oberbillig Group note payable is collateralized against the Oberbillig Royalty (5% net smelter returns royalty held by the Corporation) over the claims that are now held by the Corporation.

Notes payable at June 30, 2013 and December 31, 2012, are as follows:

	Note Payable	Note Payable	Total
	Estate of JJ Oberbillig	Oberbillig Group	
Balance, December 31, 2011	\$ 148,685	\$ 594,735	\$ 743,420

6. Financial Instruments

a) Warrant derivative

During the three month period ended June 30, 2013, the Corporation issued 2,000,000 share purchase warrants to Franco-Nevada (Note 4). The warrants are exercisable into 2,000,000 common shares of the Corporation at C\$1.23 per warrant. The warrants contain a mandatory conversion feature which requires Franco-Nevada to exercise 100% of the outstanding warrants if at any time the volume weighted average trading price of Midas Gold's common shares is equal to or greater than C\$3.23 for a period of 30 consecutive trading days. The warrants expire in ten years on May 9, 2023.

The exercise price of the warrants is denominated in Canadian dollars however the functional currency of the Corporation is the US Dollar. As a result of this difference in currencies, the proceeds that will be received by the Corporation are not fixed and will vary based on foreign exchange rates. Warrants with an exercise price denominated in a currency that is different from the entity's functional currency are a derivative and are required to be recognized and measured at fair value at each reporting period. Any changes in fair value from period to period are recorded as a gain or loss in the statement of net loss and comprehensive loss.

Upon exercise of the warrants, the warrant holders will pay the Corporation C\$1.23 for each warrant exercised in exchange for one common share of Midas Gold. There are no circumstances under which the Corporation would be required to pay any cash upon exercise or expiry of the warrants. Any warrants exercised will be measured at fair value at the date of exercise and the associated liability will be reclassified to share capital. The liability associated with any warrants that expire unexercised will be recorded as a gain or loss in the statement of net loss and comprehensive loss.

A reconciliation of the change in fair value of the warrant derivative is below:

	Warrant Derivative	
Balance, May 9, 2013	\$	886,000
Change in fair value of warrant derivative		(107,000)
Balance, June 30, 2013	\$	779,000

The fair value of the warrants was calculated using a Black Scholes valuation model. The key inputs used by the Black Sholes valuation model are:

	June 30, 2013	May 9, 2013
Fair value warrants granted	\$0.41	\$0.44
Risk-free interest rate	2.5%	1.9%
Expected term (in years)	7.9	8.0
Expected share price volatility	63.0%	62.0%

6. Financial Instruments

b) Fair value estimation

The fair value hierarchy establishes three levels to classify the inputs of valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. Investments in common shares and warrants held that have direct listings on an exchange are classified as Level 1.

Level 2 - Quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liabilities. Investments in common shares and warrants held that are not listed on an exchange are classified as Level 2.

Level 3 - Prices or valuation techniques that require inputs that are both significant to fair value measurement and unobservable (supported by little or no market activity).

As required by IFRS 13, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. At June 30, 2013, the warrant derivative was classified as a Level 2 financial instrument. None of the Corporation's other financial instruments are measured and recognized in the consolidated statement of financial position at fair value. At December 31, 2012, none of the Corporation's financial instruments were measured and recognized in the consolidated statement of financial position at fair value.

The carrying values of cash and cash equivalents, trade and other receivables, trade and other payables, notes payable and accrued interest payable, approximate their fair value due to the short-term nature of the instruments.

7. Share Capital
