### **Midas Gold Completes C\$9.8 million Private Placement**

*Funds to be used for continuing evaluation of, and a PFS on, the Golden Meadows Project, Idaho*

**VANCOUVER, BRITISH COLUMBIA – Midas Gold Corp. (TSX:MAX)** ("Midas Gold" or the "Company") today announced that it has completed the non-brokered private placement (the "Placement") with Teck Resources Limited (TSX: TCK.A and TCK.B; NYSE: TCK) ("Teck") announced on July 2, 2013. Teck subscribed for 12,740,000 common shares of Midas Gold ("Shares") at a price of \$0.77 per Share for gross proceeds of C\$9,809,800. Adding in the proceeds from the Placement, Midas Gold currently has approximately US\$28 million in cash and US\$26 million in working capital. Proceeds of the Placement will be used to continue the evaluation of Midas Gold's Golden Meadows Gold Project located in Idaho, USA, and for general working capital purposes.

Following the Placement, Teck owns approximately 9.9% of the issued and outstanding shares in Midas Gold.

The Shares issued to Teck are subject to a hold period and may not be traded until November 5, 2013 except as permitted by applicable securities legislation and the rules and policies of the Toronto Stock Exchange.

#### ***About Midas Gold and the Golden Meadows Project in the Stibnite-Yellow District***

Midas Gold, through its wholly owned subsidiaries including Midas Gold Inc., MGI Acquisition Corporation and Idaho Gold Resources, LLC, is focused on the exploration and, if warranted, development of deposits in the Stibnite-Yellow Pine district of central Idaho. The principal gold deposits identified to date within the Project are the Hangar Flats, West End and Yellow Pine deposits, all of which are associated with important structural corridors. Independent mineral resource estimates are detailed in a technical report entitled "*Preliminary Economic Assessment Technical Report for the Golden Meadows Project, Idaho*" dated effective August 15, 2012 (the "**Technical Report**") and filed on SEDAR on September 21, 2012, which is available on Midas Gold's website at [www.midasgoldcorp.com](http://www.midasgoldcorp.com) or under Midas Gold's profile on SEDAR at [www.sedar.com](http://www.sedar.com). This Preliminary Economic Assessment outlines a concept for the development of a large scale, long-life, low-cost open pit gold mining operation producing gold and by-product antimony based on the estimated mineral resource, as well as outlining a number of opportunities for potential enhancement of the conceptual project.

#### ***Forward-Looking Statements***

Statements contained in this news release that are not historical facts are "forward-looking information" or "forward-looking statements" (collectively, "Forward-Looking Information") within the meaning of applicable Canadian securities legislation and the United States *Private Securities Litigation Reform Act* of 1995. Forward Looking Information includes, but is not limited to, the Company's planned use of the proceeds of the Placement. In certain cases, Forward-Looking Information can be identified by the use of words and phrases such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "suggest", "optimize", "estimates", "forecasts", "intends", "anticipates", "potential" or "does not anticipate", "believes", "anomalous", "around", "objective" or variations of such words and phrases or statements that certain actions, events or results "should", "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Statements concerning mineral resource estimates may also be deemed to constitute Forward-Looking Information to the extent that they involve estimates of the mineralization that may be encountered if the Golden Meadows Project is developed. In disclosing Forward-Looking Information in this news release, the Company has applied several material assumptions, including, but not limited to: that certain of the Company's key objectives can be completed at the cost expected; that the current exploration and other objectives

concerning the Golden Meadows Project can be achieved and that its other corporate activities will proceed as expected; that the current price and demand for gold will be sustained or will improve; that general business and economic conditions will not change in a materially adverse manner and that all necessary governmental approvals for the planned exploration on the Golden Meadows Project will be obtained in a timely manner and on acceptable terms; the continuity of the price of gold and other metals, economic and political conditions and operations. Forward-Looking Information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the Forward-Looking Information. Such risks and other factors include, among others: risks related to the availability of further financing on commercially reasonable terms and the expected use of proceeds; operations and contractual obligations; changes in exploration programs based upon results of exploration; changes in estimated mineral resources; future prices of metals; availability of third party contractors; availability of equipment; failure of equipment to operate as anticipated; accidents, effects of weather and other natural phenomena and other risks associated with the mineral exploration industry; environmental risks, including environmental matters under U.S. federal and Idaho rules and regulations; impact of environmental remediation requirements and the terms of existing and potential consent decrees on the Company's planned exploration on the Golden Meadows Project; certainty of mineral title; community relations; delays in obtaining governmental approvals or financing; fluctuations in mineral prices; the Company's dependence on one mineral project; the nature of mineral exploration and mining and the uncertain commercial viability of certain mineral deposits; the Company's lack of operating revenues; governmental regulations and the ability to obtain necessary licenses and permits; risks related to mineral properties being subject to prior unregistered agreements, transfers or claims and other defects in title; currency fluctuations; changes in environmental laws and regulations and changes in the application of standards pursuant to existing laws and regulations which may increase costs of doing business and restrict operations; risks related to dependence on key personnel; and estimates used in financial statements proving to be incorrect; as well as those factors discussed in the Company's public disclosure record. Although the Company has attempted to identify important factors that could affect the Company and may cause actual actions, events or results to differ materially from those described in Forward-Looking Information, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that Forward-Looking Information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on Forward-Looking Information.

Except as required by law, the Company does not assume any obligation to release publicly any revisions to Forward-Looking Information contained in this news release to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
