Midas Gold Corp.
Notes to Condensed Consolidated Interim Financial Statements
For the three and six months ended June 30, 2020 and 2019
(Unaudited, expressed in US dollars)

1. Nature of Operations

Midas Gold Corp. (the “Corporation” or “Midas Gold”) was incorporated on February 22, 2011 under the Business Corporations Act of British Columbia. The Corporation was organized to hold shares in wholly owned subsidiaries that locate, acquire, develop and restore mineral properties located principally in the Stibnite – Yellow Pine mining district in Valley County, Idaho, USA. The Corporation’s principal asset is 100% ownership in subsidiaries that control the Stibnite Gold Project (“Stibnite Gold Project” or the “Project”). The Corporation currently operates in one segment, mineral exploration in the United States. The corporate office of Midas Gold is located at 890-999 West Hastings Street, Vancouver, BC, V6C 2W2, Canada.

2. Basis of Preparation

a. Statement of Compliance

These condensed consolidated interim financial statements are unaudited and have been prepared in accordance with International Accounting Standard (“IAS”) 34 *Interim Financial Reporting* (“IAS 34”), using accounting policies that are consistent with the International Financial Reporting Standards (“IFRS”).

b. Basis of Presentation

These condensed consolidated interim financial statements have been prepared on the historic cost basis except for certain financial instruments, which are measured at fair value.

The preparation of these condensed consolidated interim financial statements is based on the accounting policies consistent with those applied to the consolidated financial statements of Midas Gold for the year ended December 31, 2019.

These condensed consolidated interim financial statements do not include all information required for full financial statements and should be read in conjunction with the consolidated financial statements of Midas Gold for the year ended December 31, 2019.

These condensed consolidated interim financial statements for the six-month periods ended June 30, 2020 and 2019 were approved and authorized for issue by the board of directors on August 13, 2020.

3. Leases

The Corporation leases building space for the Corporate office in Vancouver, BC, and for the U.S. subsidiaries in Donnelly, ID and Boise, ID and has identified these leases to have ROU assets. As at June 30, 2020, these are the only leases identified to have ROU assets. The Corporation is utilizing an incremental borrowing rate of 10% for calculating lease liabilities and ROU assets.

4. Warrant Derivative

In May 2013, the Corporation issued to Franco Nevada Corporation (“Franco”) 2,000,000 share purchase warrants (“Franco Warrants”). The Franco Warrants are exercisable into 2,000,000 common shares of the Corporation at C\$1.23 per warrant. The Franco Warrants contain a mandatory conversion feature which requires Franco to exercise 100% of the outstanding warrants if, at any time, the volume weighted average trading price of Midas Gold’s common shares is equal to or greater than C\$3.23 for a period of 30 consecutive trading days. The Franco Warrants expire on May 9, 2023.

The exercise price of the Franco warrants is denominated in Canadian dollars; however, the functional currency of the Corporation is the US Dollar. As a result of this difference in currencies, the proceeds that will be received by the Corporation are not fixed and will vary based on foreign exchange rates and the warrants are a derivative and are required to be recognized and measured at fair value at each reporting period. Any changes in fair value from period to period are recorded as a non-cash gain or loss in the consolidated statement of net loss/(income) and comprehensive loss/(income). Upon exercise, the holders will pay the Corporation the respective exercise price for each warrant exercised in exchange for one common share of Midas Gold and the fair value at the date of exercise and the associated non-cash liability will be reclassified to share capital. The non-cash liability associated with any warrants that expire unexercised will be recorded as a gain in the consolidated statement of net loss/(income) and

4. Warrant Derivative (continued)

comprehensive loss/(income). There are no circumstances in which the Corporation would be required to pay any cash upon exercise or expiry of the warrants.

A reconciliation of the change in fair values of the derivative is below:

	Fair Value of Warrant Derivative
Balance, December 31, 2019	\$ 274,723
Change in fair value of warrant derivative	39,045
Balance, June 30, 2020	\$ 313,768

The fair value of the warrants was calculated using the Black-Scholes valuation model. The inputs used in the Black-Scholes valuation model are:

	June 30, 2020	December 31, 2019
Share price	C\$0.72	C\$0.63
Exercise price	C\$1.23	C\$1.23
Expected term (in years)	2.9	3.4
Expected share price volatility	69%	65%
Annual rate of quarterly dividends	0%	0%
Risk-free interest rate	0.3%	1.7%

5. Convertible Notes

On March 17, 2016, the Corporation issued unsecured convertible notes (the "2016 Notes") for gross proceeds of \$38.5 (C\$50.0) million and a maturity date of March 17, 2023. On March 17, 2020, the Corporation issued a second round of unsecured convertible notes (the "2020 Notes") for gross proceeds of \$35.0 (C\$47.6) million and a maturity date of March 17, 2027. Both sets of notes, collectively the "Convertible Notes", have identical features and bear interest at a rate of 0.05% per annum, payable annually in cash or common shares (at the Corporation's election) or added to the principal and payable on maturity. Upon maturity, and for each set of notes, the outstanding principal amount is due and payable in cash unless converted in advance of that date. The holders of the Convertible Notes may convert any portion of their Convertible Notes at any time prior to the maturity date into common shares of the Corporation, at a price of C\$0.3541 per share for the 2016 Notes and a price of C\$0.4655 for the 2020 Notes. If there is an equity financing completed at 95% of the conversion price, or below, the conversion price is adjusted downward. The Convertible Notes can be redeemed by the Corporation after four years with not more than 60-days written notice and not less than 30-days written notice when the Corporation's common shares reach a volume weighted average trading price for 20 consecutive trading days of C\$0.7082 or higher for the 2016 Notes and C\$0.931 or higher for the 2020 Notes. Following the notice of redemption, but prior to the redemption date, the holders may convert their Convertible Notes to be redeemed into common shares at the then-current conversion price.

The terms for the 2020 Notes were announced on March 10, 2020, for gross proceeds of \$35.0 million at a USD:CAD exchange rate of 1:1.36 (C\$47.6 million due and payable upon maturity). The 2020 Notes were issued on March 17, 2020, with a USD:CAD exchange rate of 1:1.42; this movement resulted in a foreign exchange gain on the date of issuance.

Each set of Convertible Notes are deemed to contain an embedded derivative (collectively, the "Convertible Note Derivatives") relating to the conversion option. The Convertible Note Derivatives were valued upon

5. Convertible Notes (continued)

initial recognition at fair value using partial differential equation methods. At inception, for each set of notes, the face value of the notes was reduced by the estimated fair value of the related convertible note derivative and the transaction costs. See below for additional detail of initial value upon issuance of each set of notes:

	2020 Notes	2016 Notes
Gross proceeds upon issuance	\$ 35,000,000	\$ 38,508,431
Foreign exchange gain	(1,419,753)	-
Face value of convertible note	\$ 33,580,247	\$ 38,508,431
Estimated fair value of embedded derivative	(17,197,994)	(19,771,572)
Transaction costs	(213,575)	(429,723)
Convertible note liability, net	\$ 16,168,678	\$ 18,307,136

The Convertible Notes are measured at amortized cost and will be accreted to maturity over the term using the effective interest method. The expected value of the 2016 Notes at maturity is \$36.6 million (C\$49.9 million) based on the exchange rate at June 30, 2020 (2019 - \$38.1 million (C\$49.9 million)). The expected value of the 2020 Notes at maturity is \$34.9 million (C\$47.6 million) based on the exchange rate at June 30, 2020.

During March 2020, the fourth annual interest payment was made to the 2016 Note holders in cash, in the amount of \$18,353 (2019 - \$18,727).

The components of the Convertible Notes are summarized as follows:

	Convertible Notes
Balance, December 31, 2019	\$ 27,336,373
Additions	16,168,678
Accretion and Interest Expense	1,999,051
Interest Payments	(18,353)
Foreign exchange adjustments	(627,942)
Balance, June, 2020	\$ 44,857,807

Upon the issuance of the 2016 Notes, of which Paulson & Co., Inc. ("Paulson") participated, the Corporation entered an Investor Rights Agreement ("IRA") with Paulson. The IRA entitles Paulson to nominate two directors to the Corporation's Board of Directors through the period to which Paulson maintains a fully diluted ownership of more than 20%. Paulson was the sole participant in the 2020 Notes. Upon the issuance of the 2020 Notes, the IRA was amended to entitle Paulson to nominate one of its two director nominees as Chair of the Corporation's Board of Directors. If all notes were converted, Paulson would hold 209,357,324 shares of the Corporation.

6. Convertible Note Derivative

Convertible Note Derivatives related to each set of Convertible Notes (Note 5) were valued upon initial recognition at fair value using partial differential equation methods and are subsequently re-measured at fair value at each period end through the consolidated statement of net loss and comprehensive loss. The convertible note derivative related to the 2016 Notes (the "2016 Derivative") had an initial fair value of \$19.8 million. The convertible note derivative related to the 2020 Notes (the "2020 Derivative") had an initial fair value of \$17.2 million. The components of the derivatives, collectively the "Convertible Note Derivatives", are summarized as follows:

 Unlimited number of first preferred shares without par value.
 Unlimited number of second preferred shares without par value.

b. Share purchase options

Under the terms of the Corporation's Stock Option Plan, the maximum number of shares reserved for issuance under the Plan is 10% of the issued shares on a rolling basis. Options may be exercisable over periods as determined by the Board of Directors of the Corporation and the exercise price shall not be less than the five-day weighted-average share price on the day preceding the award date, subject to regulatory approval. The Stock Option Plan includes a Stock Appreciation Rights ("SAR") clause which allows individuals the option to terminate vested options and receive shares in lieu of the benefits which would have been received had the options been exercised. All stock options granted are subject to vesting, with one quarter vesting upon issuance and one quarter vesting on each anniversary from the date of grant. A

12. Commitments (continued)

The Corporation is obligated to make option payments on mineral claims comprising the Cinnabar prospect, which is part of the Project, in order to maintain an option to purchase to obtain title to these claims. As at June 30, 2020, the remaining option payments due on the Cinnabar property are \$80,000, which will be paid over the next two years. The agreement includes an option to extend up to 20 years.

b. Stibnite Foundation

Upon formation of the Stibnite Foundation on February 26, 2019, the Corporation became contractually liable for certain future payments to the Foundation based on several triggering events, including receipt of a positive Record of Decision issued by the US Forest Service, receipt of all permits and approvals necessary for commencement of construction, commencement of construction, commencement of commercial production, and commencement of the final reclamation phase. These payments could begin as early as Q3 2021 based on the current permitting schedule and range from \$0.1 million to \$1 million (upon commencement of final reclamation phase) in cash and 1.5 million in shares. During commercial production, the Corporation will make payments to the Stibnite Foundation equal to 1% of Total Comprehensive Income less debt repayments or a minimum of \$0.5 million.

The Foundation will support projects that benefit the communities surrounding the Stibnite Gold Project and was created through the establishment of the Community Agreement between Midas Gold Idaho, Inc. and eight communities and counties throughout the West Central Mountains region of Idaho.

c. Legal Update

On August 8, 2019, the Nez Perce Tribe filed a complaint under the Clean Water Act (“CWA”) in the United States District Court for the District of Idaho. The suit alleges that Midas Gold Corp. and its related subsidiaries are violating the CWA by failing to secure permits for point source water pollution claimed to be occurring at Midas Gold’s Stibnite Gold Project site. The Corporation believes that the case will be ultimately dismissed.

The Corporation filed a motion to dismiss and, in the alternative, a motion to stay the litigation pending conclusion of negotiations with the Environmental Protection Agency (“EPA”) on an administrative order on consent (“AOC”) under the Comprehensive Environmental Response Compensation and Liability Act (“CERCLA”), a process that was underway before the plaintiff filed suit. Argument was heard on December 16, 2019 where the motion to dismiss was denied. On January 7, 2020, the Corporation filed its formal answer denying liability for the allegations contained in the complaint, and on January 8, 2020, the motion to stay the litigation was denied by the Federal District Court, but the court invited the Corporation and its related subsidiaries to renew a stay motion if the AOC becomes “imminent.”. A scheduling order was entered February 11, 2020, and if the matter proceeds to trial, it will likely take place in 2021.

Now entering its third year, the Corporation has been negotiating the AOC with the EPA, the United States Forest Service, the Idaho Department of Environmental Quality and the Shoshone-Bannock Tribes that will afford early clean up actions on the Stibnite Gold Project Site. Under CERCLA section 113(h), citizen suits under the CWA are pre-empted from interfering with work covered under an AOC. The Federal court has been advised that Midas Gold and the regulatory entities are engaged in efforts to craft an approach under CERCLA that would investigate the water quality and other resource issues on the Stibnite Gold Project Site and thus effectively address the relief sought in the plaintiff’s litigation. The AOC negotiations are proceeding.
